

Story #1:	Add new booking	Priority	
		Effort	
As a	Business owner		
I want	To add new bookings into the system		
So that	I can add bookings on customers' behalf		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that the owner enters an existing customer's username</p> <p>And the owner enters a valid time slot</p> <p>When the owner submits the request</p> <p>Then ensure that a booking is made for that customer</p> <p>Criterion 2:</p> <p>Given that the owner enters an existing customer's username</p> <p>And the owner enters an invalid time slot</p> <p>When the owner submits the request</p> <p>Then ensure that the owner is informed that the time slot was invalid</p> <p>And prompt the owner to re-enter the time slot</p> <p>Criterion 3:</p> <p>Given that the owner enters an existing customer's username</p> <p>And the owner enters an already allocated time slot</p> <p>When the owner submits the request</p> <p>Then ask the owner if they want to overwrite the existing booking</p> <p>And if they say 'yes', overwrite the old booking details with the new details</p> <p>Criterion 4:</p> <p>Given that the owner does not enter an existing customer's username</p> <p>When the owner enters the username</p> <p>Then alert the owner that that user does not exist</p> <p>And prompt the owner to re-enter the username</p>		

Story #1:	Add new employee	Priority	
		Effort	
As a	Business owner		
I want	To add new employees to the system		
So that	I can manage shift schedules		
Acceptance criteria	<p>Criterion 1:</p> <p>Given that the owner enters a non-existing employee name</p> <p>When the owner submits the request</p> <p>Then ensure that a new employee is created in the system</p> <p>Criterion 2:</p> <p>Given that the owner enters an already used employee name</p> <p>When the owner submits the request</p> <p>Then ensure that the owner is informed that the employee already exists</p>		

Story #1:	Add working times	Priority	
		Effort	
As a	Business owner		
I want	To add working times for the next month		
So that	I can organise my employee roster a month in advance		
Acceptance criteria	Criterion 1:		
	Given that the owner selects an unallocated time slot		
	When the owner selects the time and employee		
	Then ensure that a new shift is created in the system		
	Criterion 2:		
	Given that the owner selects an already allocated time slot		
	When the owner selects the time and employee		
	Then ask the owner if they want to overwrite the existing shift		
	And if the owner says 'yes' then overwrite the old shift details with the new details		
	Criterion 2:		
	Given that the owner selects a time slot outside the current month		
	When the owner selects the time and employee		
	Then inform the owner that the time slot must be within the current month		
	And prompt the owner to re-enter the time slot
